Forecast for Sunday 14 Jul 2024

Weather: Mostly cloudy overnight and at first on Sunday with a little drizzle in the north. Much of the day will be dry and becoming brighter with sunny spells and just an isolated light afternoon shower.

Chance of cloud-free hill tops above 800m: 40% at first, improving 80% by afternoon.

Low cloud and visibility: Banks of cloud at first above about 500 to 600m, most extensive in north of area, lifting and breaking up during the morning, leaving patches of cloud around 700 to 800m. Some mist patches beneath the cloud at first, otherwise good visibility.

Met Office Aberdeen Meteorologist's View
Some fine walking conditions on Sunday, especially from later in the morning, clouds dispersing and winds becoming light.

Forecast for Monday 15 Jul 2024
Weather: Mostly dry morning with sunny spells and a few patches of mist and low cloud in the glens at first. Clouds will build later in the morning with a few heavy, slow moving showers breaking out in afternoon. Small risk of thunderstorms. Showers dying away during evening.

Maximum wind: Light winds at all levels.

Chance of cloud-free hill tops above 800m: 80% in the morning, reducing 50% in afternoon.

Low cloud and visibility: Generally good visibility with occasional cloud cover developing around 800 to 900m. Marked reduction to poorer visibility as showers come along with clouds lower down the hills.

Temperature: **Glens:** 9 Celsius rising to 20 Celsius.
At 800m: Plus 9 Celsius.
Freezing level: Well above the tops.
